DGA

DURATION

3 Months

COMPLETION DATE

October 2021

BUDGET

\$800k

PROJECT SUMMARY

What started as a third-floor restroom refurbishment evolved into a complete plumbing retrofit of AMT's labs in an ARE SSF building. New systems installed consisted of Acid Waste Neutralization (AWN), Reverse Osmosis Deionization (RO/DI), CDA-N2 generation system with stainless steel Swagelok piping, and modification to the following house systems: CDA, VAC, N2, O2, and IHW/ICW, new emergency fixtures for the labs, new locker rooms, and refurbishment of the existing restrooms.
