PROJECT SUMMARY

The historical theater is located on a busy corner of downtown San Francisco. It was built in the 1920s, this former vaudeville house and movie theater was restored and reopened nearly 60 years later as a leading-edge performing arts venue. The project started late 2017 and lasted through 2018. Once complete the historical theater was upgraded from no air conditioning in the existing theater, to having both heating and cooling system for the main theaters and all the support amenities and offices.
