

Skyline College B12 New Environmental Science Building - DSA

3300 College Drive, San Bruno, CA

CLIENT/OWNER

San Mateo County Community
College District

GENERAL CONTRACTOR

XL Construction

ARCHITECT

DES Architects

DURATION

21 Months

COMPLETION DATE

August 2019

CONTRACT VALUE

\$2.8M

LEED STATUS

PROJECT SUMMARY

This Design/Build - DSA project was a 22,700 SF ground up single story building, with classrooms and a stunning floor-to-deck window gallery looking over the ocean. Due to the unique climate challenges, no metal could be located outside. We were able to optimize the indoor mechanical space to house all equipment, resulting in a compact footprint. This building is also using geothermal underground piping to provide heating and cooling. This project is LEED Gold, Zero Net Energy Ready, and participated the Saving By Design program.
