

Stanford HHMB Air Handling Unit Replacement

Stanford, CA

CLIENT/OWNER

Stanford University

GENERAL CONTRACTOR

Hathaway Dinwiddie Construction Company

DURATION

6 Months

COMPLETION DATE

December 2019

PROJECT SUMMARY

The project replaced two 25,000 CFM air handling units in an occupied building. The project was completed with zero downtime to the occupants by phasing the equipment replacement and re-configuring the existing equipment to provide temporary conditioning.
